

## Detailed Specifications

|                                 |                         |
|---------------------------------|-------------------------|
| <b>Frame Width:</b>             | 71[mm]                  |
| <b>Frame Height:</b>            | 71[mm]                  |
| <b>Frame Length:</b>            | 44[mm]                  |
| <b>Steps per Rev.:</b>          | 200                     |
| <b>Step Angle:</b>              | 1.80[degrees]           |
| <b>Drive Sequence:</b>          | unipolar                |
| <b>Drive Voltage:</b>           | 24[V]                   |
| <b>Rated Current per Phase:</b> | 1.60[A]                 |
| <b>Resistance:</b>              | 2.00[Ohms]              |
| <b>Inductance:</b>              | 3.30[mH]                |
| <b>Holding Torque:</b>          | 672[mN-m]               |
| <b>Detent Torque:</b>           | 22.00[mN-m]             |
| <b>Mass:</b>                    | 660[g]                  |
| <b>Rotor Inertia:</b>           | 220[g-cm <sup>2</sup> ] |
